INDIA ECONOMICS

MORNING MOCHA

Global markets ended in upheaval as the US President moved forward with 25% tariffs on Canada and Mexico, while tariffs on China were hiked by 10%. With all three nations vowing retaliatory measures, the fears of a global trade war have resurfaced. In addition, US military aid to Ukraine was also withdrawn. These measures come on heels of weak macro data and raise concerns over its impact on US growth and inflation. Recent data showed a moderation in US ISM manufacturing PMI, led by a sharp decline in new orders. Input prices rose to a more than 2-year high amidst escalating trade tensions, which is likely to weigh on the sector. In Japan and Eurozone, manufacturing PMI rose but remained below the expansion mark. India's manufacturing PMI printed at 56.3 in Feb'25 from 57.7 in Jan'25, even though the pace of expansion remained well above historical trends.

 Global markets ended mixed as investors remain wary of retaliatory tariff measures. US stocks closed lower as ISM data softened. Stocks in China also moderated on tariff woes. Nikkei inched up as interest rate differential with the US remains in focus. Sensex fell by 0.2%, led by losses in oil and gas stocks. It is trading further weaker today, in line with Asian stocks.

 US 10Y yield softened amidst risk-off sentiment. Fed official's statement suggesting that inflation is getting aligned to the targeted level also supported sentiment. Germany's 10Y yield stiffened considerably as tariff fears raised inflationary concerns. India's 10Y yield inched up a tad. It is trading lower at 6.72% today.
