Minority stake sale to strategic investor

SUMMARY
India Economics: Fiscal Reforms

India's FM announced one of the boldest reform to kick start the investment cycle by reducing effective corporate tax rate by 4.3% to 25.2%. The measure will benefit smaller firms and services sector the most. Fresh investments will be taxed at 17% thus leading to a much improved RoE. The aggregate impact on Budget is Rs 1.45tn (0.7% of GDP). With expenditure management and buoyant asset sale in light of the above measures, we believe government will be able to restrict fiscal deficit to 3.5% of GDP in FY20 (3.3% earlier).

Future Supply Chain Solutions

Nippon Express Co Ltd (Nippon), acting through its subsidiary Nippon Express (South Asia & Oceania) Pte Ltd, has agreed to acquire a 22% minority stake in FSCSL, through a combination of fresh share issuance and secondary purchase. FSCSL will issue 3.8mn fresh shares at Rs 664/sh (22% premium over current market price) to Nippon, amounting to 8.6% of diluted share capital, for an estimated consideration of Rs 2.5bn. The Japanese logistics company will acquire a further 14.6% (pre-dilution share capital) from an institutional investor, taking its shareholding to 22% on a fully diluted basis.

chief.economist@bankofbaroda.com

Reforms to boost growth: In one of the boldest reform measure to address current economic slowdown, the government reduced the effective corporate tax rate to 25.2% from 29.5% currently (26.9% in AY 2017-18). MAT has also been reduced from 18.5% to 15%. The aggregate impact of these measures will result in Rs 1.45tn reduction in tax revenue (0.7% of GDP).

Who benefits?: Services sector and smaller firms benefit most from the above measures (Fig-1, 4). Notably, manufacturing firms currently pay an effective tax of 27.8% and services firm an effective tax of 30.6%. Firms with turnover greater than Rs 5bn pay an effective tax of 26.3% compared with an effective tax rate of 29.1% for firms with turnover between Rs 100-500mn.

Current fiscal state: Provisional estimates for direct taxes show collections are 4.9% higher than last year at Rs 5.5tn (Apr-Sep'19). The Budget estimated an increase of 18.6%. With today's announcement, direct tax collections will be lower by Rs 1.45tn compared with BE. GST collections have increased by 5.4% during Apr-Jul'19 compared with BE of an increase of 19.1% in indirect taxes. However, Centre's net tax revenues have increased by 14% in FYTD20 (Apr-Jul) vs 15.4% last year.

Fiscal deficit at 3.5% of GDP: Given current revenue collections and the impact of new measures, we believe the fiscal deficit for the year is likely to be revised upwards to 3.5% of GDP thus implying additional borrowing of ~Rs 550bn. The market reaction also suggests the same. In Dec'17 when government had increased borrowings by Rs 500bn, 10Y yield increased by 18bps compared with 16bps increase today. A mix of expenditure management and additional revenue mobilisation through asset sales will help the government in restricting fiscal deficit to 3.5% of GDP.

FUTURE SUPPLY CHAIN SOLUTIONS

Logistics

20 September 2019

Minority stake sale to strategic investor

Future Supply Chain (FSCSL) today announced plans to sell a 22% minority stake to Nippon Express, a Japanese logistics company. Key features of the transaction are outlined below.

- Nippon Express Co Ltd (Nippon), acting through its subsidiary Nippon Express (South Asia & Oceania) Pte Ltd, has agreed to acquire a 22% minority stake in FSCSL, through a combination of fresh share issuance and secondary purchase. The transaction is subject to requisite shareholder and regulatory approvals.
- FSCSL will issue 3.8mn fresh shares at Rs 664/sh (22% premium over current market price) to Nippon, amounting to 8.6% of diluted share capital, for an estimated consideration of Rs 2.5bn. Nippon will acquire a further 14.6% (pre-dilution share capital) from an institutional investor, taking its shareholding to 22% on a fully diluted basis.
- Nippon is a leading global logistics company headquartered in Japan, with a presence across various logistics segments, including multi-modal transportation, warehousing, third-party logistics and railways. It has been present in India since 2007, focusing on international freight forwarding. As of FY19, the company had aggregate revenue of US\$ 19.3bn.
- FSCSL and Nippon plan to enter into a business collaboration, leveraging the latter's competency across several key markets. FSCSL would also explore business opportunities with Nippon's Japanese and MNC clientele. For its part, Nippon expects to expand its footprint in India.
- We view the continuing interest from global logistics players in the Indian market as a positive. Several multinational companies have bolstered their presence in India in recent years, including CJ Express of Korea which acquired a 50% stake in DARCL couple of years ago.
- In our opinion, a successful deal would be a positive development for FSCSL. The transaction is likely to be EPS-accretive in FY21 and should improve the company's debt-equity ratio. We also expect FSCSL to benefit from Nippon's global pedigree and expertise.
- We maintain our earnings estimates pending further developments and reiterate our BUY rating on the company with a Jun'20 TP of Rs 715.
