Monthly Tracker

24 November 2023

Capacity additions on track

- India's power generation capacity grew 4% YoY in October to ~425GW, with solar energy topping the additions at 10.4GW
- New transmission line and substation infrastructure beat targets for the month but continued to undershoot YTD goals
- We retain NTPC and PWGR as top picks while maintaining HOLD on TPW due to expensive valuations

Improving demand-supply balance: After a supply shortage in 2022, India's power demand-supply dynamics have been better balanced this year. Power demand during September and October stood at 141.8BU and 140.7BU respectively, and demand not met was limited to ~500MU for both months. Peak demand in October surged 19% YoY to 222GW (-8.6% MoM).

Recommendation snapshot

Ticker	Price	Target	Rating
NTPC IN	254	290	BUY
PWGR IN	210	250	BUY
TPW IN	816	800	HOLD

Price & Target in Rupees | Price as of 24 Nov 2023

Solar power on the rise: India's installed power generation capacity stood at 425.5GW in October, rising 4.1% YoY, with solar energy forming the bulk of the additions at 10.4GW for a total of 72GW. Energy generated in the country stood at 131BU in September, rising 8.8% YoY (-5.1% MoM), of which thermal generation accounted for 83% share. Thermal plants clocked 69% PLF in September as compared to 60% in the same month last year, and NTPC continued to outperform the national average, closing Q2FY23 at 75% thermal PLF.

Transmission infrastructure picking up: In all, 1,820ckm of transmission lines were laid in October, overtaking the government's target of 962ckm. This makes for 7,026ckm additions during FY24 YTD (Apr-Oct'23) as against a target of 11,420ckm. Substation additions saw a similar trend, surpassing the government's target for October but undershooting it YTD. On the tariff-based competitive bidding (TBCB) front, Adani Transmission has commissioned its Warora Kurnool project and Sterlite Power has acquired the Beawar transmission project in Rajasthan.

Short-term market gaining depth: The short-term power market recorded volumes of 25.9BU in September, constituting ~20% of electricity generated during the month (vs. just ~10% for all of FY18). The average market clearing price (MCP) stood at Rs 5.87/kWh at IEX – the dominant power exchange – an increase of 2.4% YoY.

Top picks: We continue to prefer NTPC (BUY, TP Rs 290) and PWGR (BUY, TP Rs 250) as plays on thermal capex and India's green energy corridor respectively. Despite strong fundamentals, TPW remains a HOLD (TP Rs 800) as the stock has run up ~60% since April.
