Commentary

- Nifty added another 100 points on Monday, comfortably closing above the 26000 mark. Bank Nifty touched 59000 after breaking out above its recent swing high near 58600.
- The PSU banking space (+1.09%) continued to lift overall sentiment, though it witnessed some profit-taking towards the end of the session. The Auto index (+0.85%) also appears poised for a fresh breakout from its short-term consolidation.
- We maintain a positive outlook on Nifty with the potential to test a new lifetime high. For today's weekly expiry, 25980 acts as a key support; any dip toward this level may offer a buy-on-dips opportunity. For Bank Nifty, 58850 is expected to act as an intraday support. Sustained trade above 59000 could strengthen bullish momentum and open the doors for an extended 300-500 point rally.
