Commentary

- Bank Nifty hit an all-time high of 57830 on Friday, rallying nearly 300 points, while Nifty gained 240 points to close just below the 25800 mark.
- Most sectors, led by the FMCG index (+1.37%), contributed to the up move, whereas the IT index (-1.63%) witnessed profit booking. Easing trade tensions between the U.S. and China would likely have a positive impact on the Indian market attracting FII inflows. A stable trade environment shall aid Indian exporters, especially in IT, textiles, chemicals and auto components. Lower trade friction could also stabilize crude oil and commodity prices, easing inflationary pressures in India.
- Heading into the weekly expiry on Monday, Indian market is expected to open gap-up. However, with upside capped near 26000, a cautious approach is advised at higher levels.
